

RadioRA® | quick start car visor package

RadioRA dimmer  
and car visor remote

Pre-programmed home light control  
system for new and existing homes

## Pre-programmed light control system

Offer your clients the safety, convenience and ambiance of RadioRA home light control, while experiencing the simplicity of this easy-to-install, radio frequency system.

- No programming or re-wiring required
- RadioRA dimmers simply replace existing switches
- Perfect for builders selling multiple homes with similar functionality

Used in thousands of homes for nearly a decade, RadioRA is relied upon by professionals—and homeowners—as the most trusted brand in wireless light control.

RadioRA tabletop master control placed at bedside provides convenient control of interior and exterior lights.

## 5 areas of light

### Quick Start Car Visor Package

Control five areas of light individually, or in groups, with convenient car visor remotes and master controls.†

Integrate lighting with a security system, and expand at any time with additional RadioRA controls and accessories.
