

The new roller 20 shade system is the latest addition to the Sivoia QED® product line. It offers all of the benefits of Sivoia QED technology, including quiet, precision movement of shades — all in a smaller package. Roller 20 has a slim profile and narrow width ideal for smaller residential window frames. Now, homeowners can easily incorporate the smallest and most advanced digitally controllable shading technology into the design of their homes.

**roller 20 features:**

- Small system size fits into most residential window frames
- Smooth, quiet, precision controllable shading system that responds at the touch of a button
- A variety of fabric offerings to enhance the décor of your clients' homes
- Elegantly styled keypads and controls that provide users with intuitive control of the shades
